 W-01212A-09-0082

In the matter of the aforementioned docket numbers, I, the undersigned, a resident of Maricopa, Arizona, located in Pinal County, do hereby oppose the proposed increases from Global Water for the following reasons:

· The proposed increase will have a financial impact on my personal budget as well as my Homeowners Association budget. My HOA is already facing significant challenges due to delinquencies and foreclosures and this will only serve to make conditions worse.

· The proposed rate increases are purely profit-driven so that major stakeholders and investors will realize a higher rate of return. Increases do not propose improvements to service, quality of water, or distribution and there are no plans to improve existing, or build new infrastructures.

· Maricopa is one of the hardest hit areas in the country for foreclosures. Proposed increases will be detrimental to attracting builders and buyers, which further diminishes already reduced real estate values. Associations cannot raise assessments enough to cover increases, which will force a severe reduction in maintaining green, healthy landscaping. Aesthetics are the first impression of a community and often, one of our biggest and most visible amenities. If the increased rates are approved as proposed, it will severely limit our

ARIZONA CORPORATION COMMISSION

UTILITY COMPLAINT FORM

ability to maintain those amenities, thus creating a less than desirable appearance to residents, visitors, guests and potential buyers.

From: Maricopa, Arizona Residents

Re: global Water Rate Increase

In the matter of the aforementioned docket numbers, I, the undersigned, a resident of Maricopa, Arizona, located in Pinal County, do hereby oppose the proposed increases from Global Water for the following reasons:

* Increased utility cost, at the requested level, not only effects my personal financial budget but the Homeowners Association that I live in will be placed in a worse financial condition than it is already in due to delinquencies and foreclosures.

* The proposed rate increases are solely to provide a higher rate of return for the investors and no improvements to service, quality of water or distribution ability is planned.

* Maricopa is one of the hardest hit areas in the country with foreclosures. Any of the proposed increases will be detrimental to attracting builders and/or buyers which will further stigmatize our real estate values and the desirability of this area. Associations cannot raise assessments enough to cover this increase which means

ARIZONA CORPORATION COMMISSION

UTILITY COMPLAINT FORM

landscaped area will not be adequately watered. Aesthetics draw builders and buyers which will be less likely to happen if these increases are approved.

To All Global Water Customers:

Global Water wants the ability to raise our rates over 150% over the next decade. We all understand a company needs to be profitable, but a water company is a utility and should have the public interest in mind. Price gouging and profiteering have never been the American way. To expect the local water company customers to recoup any loss Global Water has experienced due to their past business decisions is unreasonable.

Our rates should be based on competitive pricing and a reasonable ROI. If Global Water is unable to maintain profitability they need to get out of the water business

According to CopaNews.com, Palo Verde Utilities, which is the Global Water division that supplies Maricopa sewer services is currently in the red, this according to Maricopa/Casa Grande General Manager Ed Borromeo. Thus, Global Water really wants financial relief for their sewer charges and is filing an almost 120% rate increase request. They believe they are offering Maricopa customers some relief by requesting a three-year phase-in for their increase. There is a blatant lack of concern for water customers in this strategy. Why isn't this

ARIZONA CORPORATION COMMISSION

UTILITY COMPLAINT FORM

part of the overall Global Water profit and loss statement?

In addition to the over the top request for rate increases, Global Water has demonstrated a total lack of understanding of the meaning of customer service. Before they ask for increased rates it would be good to provide increased customer service. Before they lay off customer representatives it would be a good idea to cut back on executive compensation.

We are all experiencing challenges financially and face the reality of investment loss, unlike Global Water we don't have the ability to offset our losses by passing them on to someone else.

If you agree that this is an unreasonable rate increase, please sign the petition to investigate the rationale for approving any rate increase.
